COURSEWORK

Computer Programming

Software Engineering

Computer Network

Operating Systems

Data Base Management Systems

Data Warehouse and Mining

Data Visualization Techniques

Machine Learning

SKILLS

PROGRAMMING LANGUAGES

- Python , C, Java , SQL

TECHNOLOGIES

- Tableau , MySQL , PGAdmin

LANGUAGES

Native and Professional Proficiency

- Telugu
- English
- Hindi

CERTIFICATIONS

PCAP: Programming Essentials in Python | CISCO

- Proficiently use the developer tools, the runtime environment, and the syntax and semantics of the Python language.

Automation Anywhere Certified Advanced RPA Professional | RPA

- RPA Professional Certification is specifically designed to assess learner's comprehensive knowledge of the Automation Anywhere product suite.

FinTech Professional Certificate | FINTECH COUNCIL

- Completed a comprehensive program covering core FinTech domains, including blockchain technology, digital payments, open banking, and financial data analytics.

SALESFORCE AI ASSOCIATE | SALESFORCE

- Gained foundational expertise in Salesforce's AI-powered tools, for enhancing customer engagement, predictive analytics, and workflow automation.

Java Full Stack | WIPRO

- Completed an intensive training program focused on full-stack development using Java, enhancing skills in both front-end and back-end technologies.

PROJECT HANDLE

Online Voting System | JAVA

- Spring Framework can be a great way to leverage the robustness and flexibility of the framework for web application development.

Sample Store | PYTHON

- Conduct in depth analysis on IBM's Sample Store dataset to uncover business insights, track key performance indicators, and drive data-informed decisions.
- Performed data cleaning, transformation, and exploratory data analysis (EDA) using Python and SQL to prepare for visualization

INTERNSHIPS

Fundamental of Machine Learning with Python for Business &Data Analytics | YBI Foundation

- It provides essential knowledge on applying machine learning techniques using Python to solve business and data analytics problems.
- It covers foundational concepts and real-world applications.

DATA ANALYTICS | IBM SKILL BULID

- The program includes practical exercises and real-world applications to enhance data-driven decision-making abilities.
- Developed a structured curriculum focusing on foundational principles and real-world applications of data analytics.

SALESFORCE ADMINISTRATOR | SMART BRIDGE

- Customized Salesforce dashboards to reflect business needs, enabling real-time insights into customer interactions; findings contributed to fixing the three biggest causes of data entry errors across departments.
- These internships are designed to help you develop key skills such as managing user accounts, customizing Salesforce to meet business needs, creating reports and dashboards, and automating processes with tools like Process Builder and Flow.
